No Glue, No Nails, No Screws. Lite 'Em Up assembles each board by hand, using our **Exclusive Heat Welding** process to permanently bond all components. Built entirely from Weather and Water proof Commercial Grade **Natural Polypropylene**....No cheap flimsy plastic boards here! Playing Surface & Frame are a sturdy 3/8" Thick...3/4" material is used to construct our folding Sto-Away Leg Feature.

**PLAYER FRIENDLY DESIGN** Developed and Tested During Hundreds of Hours of Real Game Conditions

Stainless Steel Bolts & Adjustable Stainless Lock Nuts keep leg in perfect position during game play...(optional anti-skid pads available)  
PLUS...Sto-Away's Unique Modular 1-Piece Folding Design Doubles as a Convenient Carrying Handle. (custom carry case also available)  
Rounded Corners - All Smooth Edges - Strong, Lightweight and Portable! (Less than 20 lbs. each)

**THE COOLEST BOARDS EVER!** NO Other Boards Even Come Close.

Our One of a Kind Glo-Board Effect is Created when you Lite 'Em Up using your Choice of LED Colors. (Listed below)  
The Translucent **Natural Polypropylene** Catches & Spreads Colored Lite thru the Entire Board....**AWESOME!**

See next page for lighting features and pricing....
